INTRODUCTION

As a renowned flooring company with over 10 years of experience, **IDEAL FLOORING LLC** stands out for its unparalleled expertise and wide selection of top flooring products. The choice of flooring defines the aesthetic appeal, functionality, and ambiance of your business.

That's why **IDEAL FLOORING LLC** provides you with flooring solutions tailored to your needs.

TARKETT FLOORING

IDEAL FLOORING LLC in collaboration with **Tarkett** from past 10 years and done 1000 of projects in United Arab Emirates. We **IDEAL FLOORING LLC** and **Tarkett** are looking forward to have more collaboration in our future business. Tarkett vinyl flooring stands out for its exceptional comfort and durability, making it a highly sought-after choice. A wide selection of colors and textures caters to a wide variety of interior design styles and preferences.

VINYL FLOORING

Vinyl flooring is a synthetic material primarily made from polyvinyl chloride (PVC). The material mimics natural materials such as wood or stone in sheets or tiles. Durable and popular, it offers versatility in design is easy to maintain. Provides cost-effective flooring for a wide variety of spaces.

LUXURY VINYL TILES (LVT)

Need a natural looking floor without the hassle? Luxury vinyl tiles are the perfect solution for your project. Waterproof, tough, easy to install and simple to maintain, these multi-layer floors provide an authentic alternative with performance advantages. Made with recycled content and with fully recyclable options our luxury vinyl tiles enhance your project with the best in natural, abstract and unicolour design in a scratch and stain resistant floor that endures under constant use.

STONE PLASTIC COMPOSITE (SPC)

An SPC floor provides the authentic look of wood or stone without the hassle. A durable and low-maintenance solution that combines luxury vinyl and laminate flooring. With SPC flooring, you get the appeal of natural materials and the durability of concrete, while maintaining a robust foundation.

WOVEN VINYL FLOORING

Woven vinyl tiles combine the durability of vinyl with the look and feel of woven fabric. These tiles are crafted by weaving vinyl strands together, creating a resilient and visually appealing surface. Woven vinyl tiles are known for their strength, easy maintenance, and resistance to stains and wear.

LINOLEUM FLOORING

Linoleum flooring is a resilient and eco-friendly flooring option. The materials used in making it are linseed oil, cork dust, wood flour, and rosin. As a result of its composition, linoleum is biodegradable and has low volatile organic compounds (VOCs). With various colors and patterns, linoleum is durable, water-resistant, and easy to maintain.

SISAL CARPETS

Sisal carpets are natural fiber floor coverings made from the agave plant's leaves. The earthy texture and durability of sisal carpets add a touch of warmth and elegance to interiors. They are popular for their sustainability and ability to resist stains and wear.

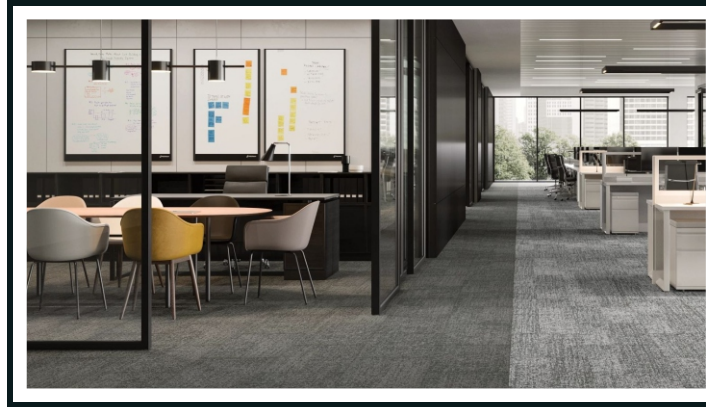

3D FLOORING

3D flooring is a type of flooring that uses an image to create the illusion of depth and dimension on the floor. It is a popular choice for businesses because it can add a unique and eye-catching touch to any space. The protective layer safeguarding the image ensures resilience against scratches, scuffs, and fading, keeping your floors looking their best for years to come.

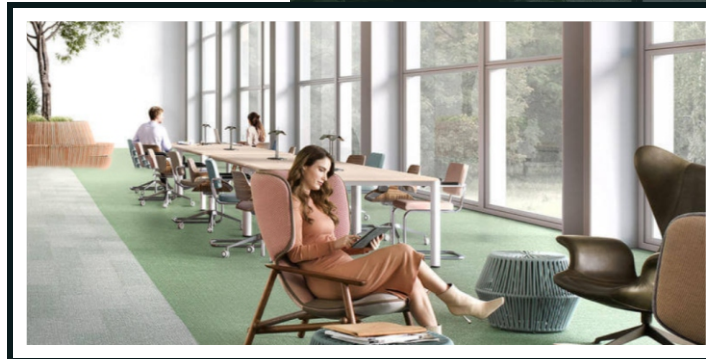

CARPET FLOORING

We **IDEAL FLOORING LLC** dealing in all kind of Carpet flooring for commercial and hospitality use we have wide range of carpets.

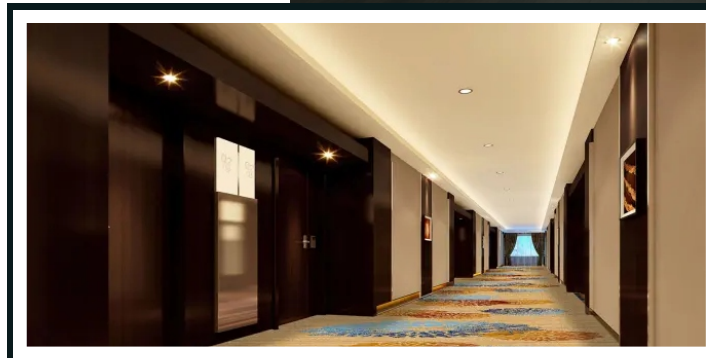

COMMERCIAL CARPET

We are distributor of Tarkett Desso carpet made in Netherlands. They have wide Range of commercial carpets with 100 of collections and 1000 of colors.

HOSPITALITY & HOTEL CARPET

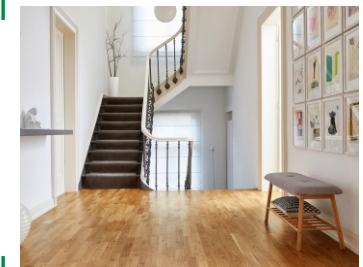

This carpet is famous for hand tufted axminster carpet we are dealing with SYG carpet are of the leader in the industry

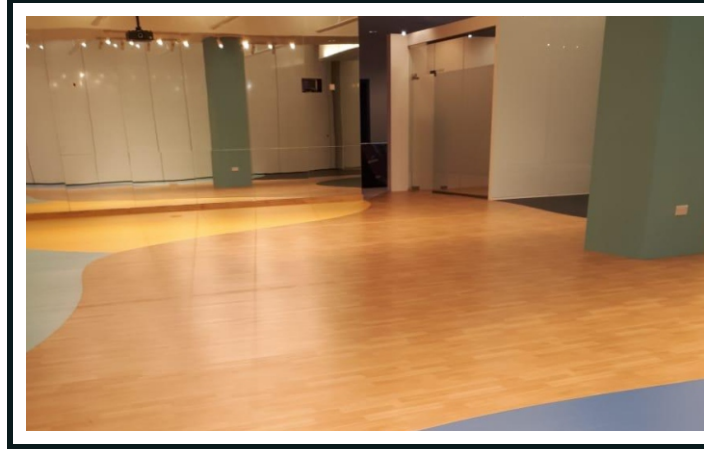

WOODEN FLOORING

Wooden flooring is a popular choice for commercial spaces. It typically comes in two main forms: solid wood and engineered wood. Planks of solid wood flooring are cut from a single piece of timber, creating a traditional look. A hardwood veneer tops multiple layers of wood, providing greater stability.

GYM / SPORTS FLOORING

Sports and gym floors provide a supportive and durable surface for athletic activities. They are made from a variety of materials, including rubber, vinyl, or interlocking tiles. The primary goal is to reduce impact on joints, enhance performance, and prevent injuries.

RUBBER FLOORING

Rubber flooring is versatile and resilient, used in gyms, fitness centers, industrial spaces, and healthcare facilities. It is crafted from natural or synthetic rubber materials, offering excellent durability and shock absorption. The soft and flexible nature of rubber makes it comfortable to stand and walk on, reducing fatigue.

RAISED ACCESS FLOORING

An elevated floor is a cool flooring setup supported by movable supports and containing removable panels. There's a plenum below it where you can neatly store wires, cables, pipes, and ducts. Making upkeep easy, it hides essential but not-so-pretty things out of sight.

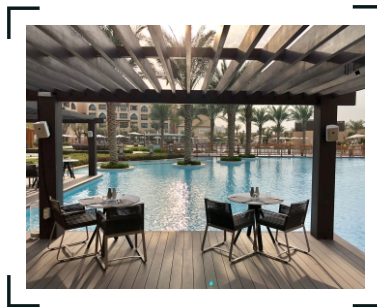

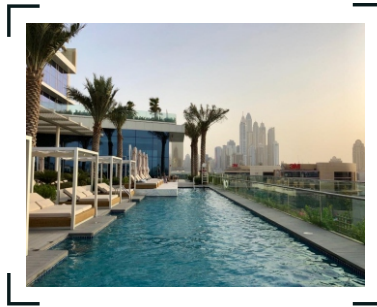

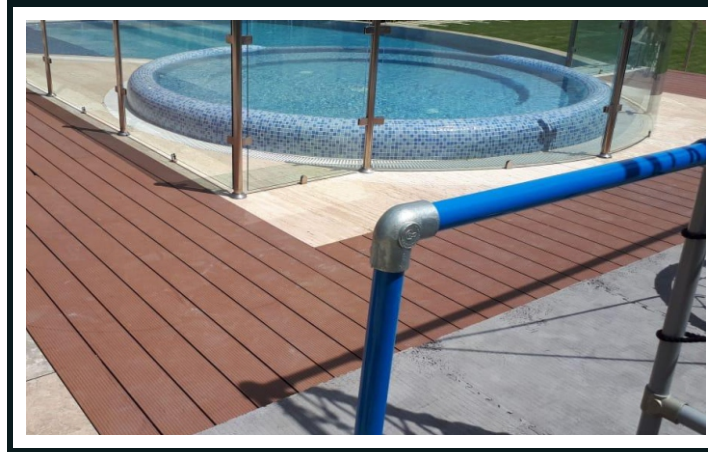

ENTRANCE DOOR MAT

An entrance door mat is a practical and essential element for businesses. It prevents dirt, debris, and moisture from being tracked in from footwear at the entryway. These mats come in various materials such as coir, rubber, or absorbent textiles. They provide a slip-resistant surface that not only maintains cleanliness but also enhances safety.

SWIMMING POOL DECKING

The decking around a swimming pool is typically constructed with durable materials designed to withstand water and outdoor elements. Common decking materials include concrete, wood, composite materials, or specialized pool deck tiles. Besides being slip-resistant, the pool decking serves as an aesthetic addition to the pool area.

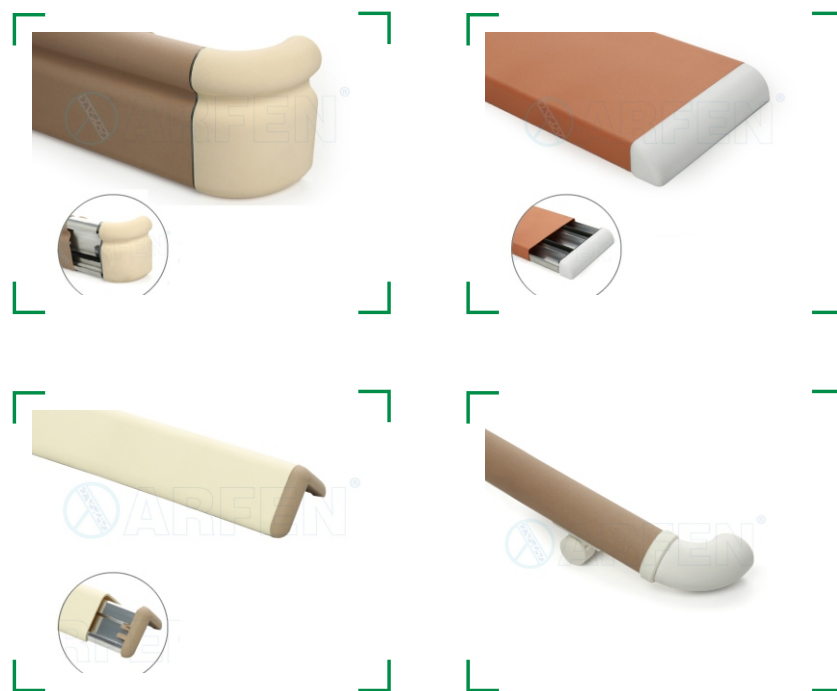

HOSPITAL HANDRAIL WALL GUARD CORNER GUARD

Handrails, wall guards, and corner guards are essential components of interior design and safety. They offer support and guidance along staircases or ramps. Wall guards protect walls from damage, often caused by moving furniture or heavy traffic. Corner guards shield corners from impact, preventing wear and tear.
